Dear SSMS Parents/Guardians,

SSMS administration hopes you are having an enjoyable summer. Congratulations in being admitted to Accelerated 7th math course for 2022-2023 school year. Your child has successfully completed accelerated 6th grade math. Now that your child has had three weeks of summer break, it is time to review his/her math knowledge to prepare him/her for Accelerated 7th math (7th grade and Pre-algebra 8th grade level content).

To prepare your child for the pace and expectations of that course, Accelerated 7th grade math course will require equal discipline from your child, and it is crucial that he/she spends some summer time preparing.

SSMS has provided your child an opportunity to prepare him/her for Accelerated 7th math readiness called Khan Academy Get Ready for 8th grade. Khan Academy Get Ready for 8th grade is an online course to reinforce and expand upon concepts your child has studied in earlier math courses. It is extremely important that your child is proficient with these concepts in order to be successful in Accelerated 7th math. To access this course, click on the <https://www.khanacademy.org/math/get-ready-for-8th-grade>. **Please review and complete practice problems for the below lessons by August 9, 2022.**

1. Get ready for numbers and operations
2. Get ready for solving equations and systems of equations
3. Get ready for linear equations and functions
4. Get ready for geometry

Thank you and best of luck in Accelerated 7th math Team!

If you have any questions, please do not hesitate to call the school at (727) 774-6700.

Sincerely,
Accelerated 7th Math Teachers
